About me

Full-stack developer with 2+ years of experience in building and optimizing web applications. Experienced in both developing projects from scratch and improving existing ones, including service integrations, API creation, and performance optimization. Have worked with high-load systems and complex business logic, communicating directly with clients to help find optimal solutions.

Experience

- **Sales Evolution**, Software Developer (<https://salesevolution.ru/>)

December 2022 - March 2025

Development of widgets and custom solutions for amoCRM. Building integrations between various services. Creating internal tools and solutions.

- **Meriterra LLC**, Software Support Engineer

February 2020 - May 2021

Linux server administration. Database maintenance and support. Assisting clients with software setup and usage

Skills

PHP, Python, SQL, Linux server administration, REST API, JavaScript, jQuery, HTML, CSS, Vue, Cross-browser frontend development, Adaptive layout development, C++

Languages

Russian - native, English - B2

Projects

- API Integration between "Aerodar" (<https://www.aerodar.ru/>) and Ozon. System to manage shipments based on accepted packages, and special handling of non-standard packages. (PHP, MySQL)
- amoCRM Widget "Интеграция с сайтом". Enabled lead creation in amoCRM from any source, featuring flexible configuration, duplicate checks, and user-friendly setup. (PHP, MariaDB, Vue) (Demo: <https://dev.salesevolution.ru/pub/source-connector/indexV2.php>)
- Private amoCRM Widget "Deal Distribution" for TandemTrack (<https://tandemtrack.ru/>). Automated assignment of deals to managers based user configuration. (PHP, MariaDB, JavaScript)
- Private amoCRM Widget "Call Distribution" for EstateLiga (<https://estateliga.com/>). Tracks system-generated calls and dynamically reassigned them to the correct contacts. (PHP, MariaDB, JavaScript)
- C++ Pet Project. FileTagManager: A personal project for file tagging and organization. (GitHub: <https://github.com/DenFedulov/FileTagManager>)

Education

Nizhny Novgorod Automotive Technical College - Associate Degree in Programming
(Technician-Programmer)

2019
